PROFESSIONAL SUMMARY

Software Developer – AI/ML with a focus on Computer Vision and industrial-grade quality automation. Experienced in deploying state-of-the-art models including ConvNeXt, ResNet and YOLO for high-precision defect detection. Skilled in building end-to-end vision pipelines optimized for real-time inference on NVIDIA Jetson edge devices.

TECHNICAL SKILLS

Core AI: ConvNeXt, Vision Transformers (ViT), YOLOv8/v10, ResNet, MobileNet, CNN, LSTM.

Vision & Tools: OpenCV, TensorRT, PyCUDA, PySide6, PyTorch, TensorFlow, Scikit-learn, NumPy, Pandas.

Software: Python, SQL (SQLite), Docker, Kafka, Socket Programming, Git, Streamlit.

PROFESSIONAL EXPERIENCE

Software Developer | Griffyn Robotech Pvt. Ltd. (Pune, India | Nov 2024 – Present)

- Industrial Display Defect Detection: Architected an automated vision system to detect critical defects including Dead Pixels, Discoloration, Screen Burn, and Line Defects.
- Vision Transformer (ViT) Implementation: Evaluated and migrated from traditional CNNs (ResNet, MobileNet) to ConvNeXt architectures, significantly improving feature extraction for subtle surface irregularities.
- High-Precision Dead Pixel Solution: Engineered a dedicated localization module using fine-tuned YOLO models, achieving high accuracy in LCD Damage and sub-pixel defect identification.
- Implemented OCR, barcode/QR decoding as well as color classification and detection algorithms within a fully modular and dynamically configurable pipeline-based product architecture.
- Quality Workflow Automation: Replaced manual processes with a scalable PySide6/SQLite desktop application, reducing bottlenecks and improving efficiency.

Intern | CDAC, Noida (Noida, India | Sept 2022 – Feb 2023)

- Big Data Analytics: Worked on Big Data stacks (Hadoop, PySpark) to develop ML prototypes for large-scale processing.
- Sentiment Stream: Built an end-to-end NLP pipeline for real-time product review analysis using Python, LSTM, and Streamlit.

EDUCATION

PG-DBDA | CDAC Pune | 2024

B.Tech in Computer Science Engineering | AKTU Uttar Pradesh | 2023

HOBBIES

Lo-Fi music creation and reading about astronomy.
